- Jira
- Git (GitHub)
- Vercel
- Heroku

Qualities

-  Excellent leadership and team-building skills
-  Outstanding written and oral communication

Kennedy Sithole

Summary

Dedicated Software Engineer with over 2 years of professional experience designing and developing scalable web and cross-platform mobile applications. Skilled in React, Next.js, Node.js, Express, PostgreSQL, MongoDB, and Supabase, with experience delivering AI-powered solutions and collaborating in Agile development teams. A first-class honors computer science graduate committed to building high-quality, user-focused software and continuously expanding technical expertise.

Education

- Bachelor of Science Honours Degree In Computer Science(HCS) - 1st Class** **Aug 2021 - Aug 2025**
University Of Zimbabwe, Harare, Harare
 - Focused on AI, IoT, and full-stack web application development.
 - Built an AI-powered cattle sales platform with intelligent recommendations as a final thesis.

Experience

- Software Developer Intern** **Sep 2023 - Jun 2024**
Home Snappers LLC
 - Actively participated in application development using JavaScript and modern frameworks.
 - Developed front-end solutions using Next.js and Ionic for cross-platform mobile applications.
 - Implemented back-end data management with Supabase and PostgreSQL database integration.
- Part-Time Developer** **Sep 2024 - Jun 2025**
Home Snappers LLC
 - Developed full-stack applications using ReactJS, NextJS, Ionic, Node.js, and Express for robust back-end services.
 - Integrated databases using Supabase with PostgreSQL and MongoDB for efficient data management and storage.
 - Implemented responsive UI components and styling using Tailwind CSS for modern, user-friendly interfaces.
 - Collaborated closely with clients to enhance product features and drive continuous product improvement.
- Software Engineer I** **Jun 2025 - Present**
Zimotely LLC
 - Develop and maintain full-stack features across a Turborepo monorepo, building admin and client-facing applications with React, Next.js, TypeScript, Shadcn UI, and Tailwind CSS.
 - Design and implement REST APIs with Node.js and Fastify, including data models, controllers, route guards, and role-based access for admin and marketing workflows.
 - Integrate MongoDB with Mongoose for schema design, migrations, and backend data persistence across core platform features.

- Exceptional interpersonal abilities
- Keen observational and listening skills
- Willingness to learn new skills
- Dynamic approach to teamwork

- Implement secure AWS and third-party integrations, including Stripe for payments.
- Interact with AI APIs to enhance user experience and automate tasks.
- Collaborate with cross-functional teams using Jira in an agile environment, delivering scalable features while maintaining code quality through reviews, testing, and consistent UI patterns.

and Application

Nov 2023

Achievements

- Awarded a degree with first class and a University of Zimbabwe book prize.
- Awarded a certificate as a Seed for the Future Alumni for participating in the Seeds for the Future Program in November 2023.

PROJECTS

Sell-Cattle

Jun 2025

AI-Powered Digital Platform for Direct meat sales and farm optimization

- This digital platform utilizes AI to provide Zimbabwean cattle ranchers with direct access to consumers, offering competitive recommendations and eliminating the need for intermediaries to increase profits.

TillMate

Jan 2026

First Offline Point of Sale Mobile Application.

- Offline-first mobile point-of-sale for small shops and side hustles. Record sales, track stock and capital, and see real profit without spreadsheets—built for unreliable connectivity.

SpeakFlow AI

Apr 2026

AI confidence booster and English tutor.

- An AI English-speaking coach that guides you through structured lessons, live AI conversations, and personalized feedback on fluency,

vocabulary, and confidence—helping you practice speaking every day and track real progress.
